Monogram

S U S T A I N™

products made with
renewable resources

Made from either corn, sugarcane or potatoes—all renewable resources that can be harvested year after year.

Corn -- PLA

- Performs like traditional plastic
- Uses 65% less fossil fuel than traditional plastics

Sugarcane -- Bagasse

- Sugarcane fiber can be turned into products normally made from plastic or paper
- Can handle hot food up to 190° F

Potatoes-- Starch/Limestone Composite

- The biodegradable laminate is soak-proof and holds up to heat, moisture and cutting
- Unlike a paper plate, these won't get soggy while heating liquids and greasy foods

KEY POINTS ABOUT MONOGRAM SUSTAIN™

- Utilizes renewable resources which ensures that all products are sustainable from the moment they are created.
- Products project a green oriented establishment.
- Helps operators achieve their personal goal of doing more for the environment.

ALL MONOGRAM SUSTAIN PRODUCTS ARE:

- Petroleum free
- Nontoxic
- Nonallergenic
- Renewable
- Compostable
- Biodegradable
